

Slogan of Basic Income Week 2020

from 14th to 20th of September 2020
(38th calendar week every year)

European Coordination Meeting, 20th of June 2020

Motto for UBI week 2020 (this was the most voted by some activists worldwide)

“Basic Income: Freedom to Choose!”

Proposal from coordination team for the slogan in EU

In the EU we should use in this year the slogan of our ECI

“Start Unconditional Basic Incomes throughout the EU”

Proposal from coordination team for slogan in EU

Why we should use this slogan of our ECI ?

Basic Income Week is a chance

- ▶ **to prepare volunteers and activists for our ECI-campaign**
- ▶ **to inform and get publicity about our upcoming ECI**
- ▶ **to motivate people for signing our ECI (one week later)**

Proposal from coordination team for slogan in EU

If we have a consensus

- every country in EU would use our slogan

If we have not a consensus

- every country would be free to use our ECI-slogan or not

Both is okay! But better would be, if we achieve the consensus!

Next year the Basic Income Week take place from 20th to 26th of September 2021 (last date of sign is 25th of September)

All week we can celebrate more than 1 Million signatories!

Thank you!
